Alexander Becz

Talent Acquisition | Recruiter | Team Builder | OSINT | Gen AI Enthusiast

Riverton, UT 84065 | shanko.becz@gmail.com | 801.903.9097

Relentless talent acquisition leader with 12+ years delivering rapid, measurable impact for global tech organizations ranging from 60 to 5,000+ employees and up to $1B+ in annual revenue. Engineered sourcing strategies that slashed time-to-fill by up to 40% and cut cost-per-hire by six figures annually. Built and scaled candidate pipelines that fueled double-digit headcount growth across multiple business units, even in high-volume, high-stakes environments. Drove critical hiring initiatives for technical and business roles, consistently exceeding offer acceptance and retention targets. Trusted advisor to executives and hiring managers, known for solving urgent talent gaps and driving workforce transformation under tight deadlines. Expert at optimizing recruitment operations, leveraging data to eliminate bottlenecks, and delivering results that directly strengthen the bottom line.

Core Competencies:

Professional Experience:

Filevine, Salt Lake City, UT
Senior/Staff Technical Recruiter
May 2025 – present

Strategic Staff level Technical Recruiter & AI-Powered Talent Partner

- I build high-performing Engineering, AI, and GTM teams that drive product innovation across the US and EMEA (Czechia & Slovakia). Leveraging cutting-edge AI recruitment methodologies alongside deep domain expertise, I specialize in sourcing and placing elite technical talent from high-impact individual contributors to Senior/Staff-level engineers. Aiming for highly skilled engineers from realms of Python, C#, NodeJs, with a healthy mix of BackEnd, FrontEnd as well as Full-Stack Engineering. (BE - Python, C#, NodeJs | FE - Angular, Vue, React, Svelte)

- Core Sourcing Capabilities & Role Specializations: Senior & Staff Software Engineers | AI/ML Engineers | Cybersecurity Analysts | Reverse Engineers | SDETs & QAEs | SREs & Infrastructure Leaders | Enterprise GTM Talent

- Key Achievements & Impact: AI-Driven Recruitment Architecture: Built highconversion sourcing workflows using Gemini and ChatGPT for hyper-personalized candidate

sequencing, market mapping, and structured talent intelligence delivering a human-centric experience at scale.

- End-to-End Pipeline Ownership: Manage transparent, high-touch candidate experiences via Lever ATS, while building active, specialized talent pools across the US and Europe.

- Rapid GTM Scale: Hired 16 BDRs/SDRs in my first 3 weeks at Filevine setting multiple hiring speed and volume records in the company's 10-year history.

- #AI Fluency & Recruitment Stack AI-Assisted Boolean Query Generation | OSINT & GitHub Profile Evaluation | Competitive Market Mapping | Personalized Outreach | Automated Resume Scoring | Hiring Manager Briefs | Labor Market Analysis | Prompt Engineering

Tech Stack & Ecosystems I Recruit For:
Languages & Frameworks: Python, Go, Node.js, Express, TypeScript, JavaScript, C#/.NET, Pydantic, FastAPI
AI & Enterprise Integrations: OpenAI, Gemini, Claude, Anthropic, Filevine, Salesforce

OrionIG, Murray, UT
Senior TA Specialist
June 2024 – May 2025
My responsibilities span a wide range of activities, focusing on building strong candidate pipelines, fostering relationships, and empowering individuals to reach their full potential in following industries: SaaS, HealthTech, FinTech, AI/ML, Manufacturing, Education and more. Here are some of my key duties:
